New York, NY ([PRWEB](#)) May 22, 2012 -- Are you looking for an all-natural facelift – without a hint of surgery, anesthesia or anything plastic -- that will not only help you look younger, but enhance your energy, vitality and overall wellness?

Dr. Josh Wagner, founder of [The Life House](#) in New York, NY, has announced the launch of the “Dr. Wagner Anti-Aging System” – an extraordinary, easy-to-follow program that will significantly enhance your body’s natural ability to rejuvenate at a cellular level, so you’ll look and feel younger, more vibrant and enjoy a greater sense of well-being.

“This incredible system promotes optimal cellular rejuvenation, restoration and health, so you’ll automatically start to look younger, have more energy and vitality, no matter what your age,” says Wagner. “The five supplements I recommend combine to create the simplest, most powerful and easy-to-follow cellular rejuvenation protocol available anywhere.”

Dr. Wagner’s protocol – from “Systemic Formulas” and available only through approved practitioners like Dr. Wagner – includes five twice-daily supplements specifically designed to heal and rejuvenate the body at a cellular level, detoxify cells, promote cellular rebuilding and enhanced function.

Used in combination, these amazing supplements provide all the essentials necessary to promote optimal cellular health, detoxification and rejuvenation for your body to literally reverse the aging process, restore energy and vitality.

“These supplements are different and better than anything else out there,” says Wagner. “They essentially restore all the cell membranes so your hormones can function properly, and use the highest quality cellular anti-oxidants and ATP (energy) boosters globally throughout body.”

“There’s no actual Fountain of Youth, but this protocol is the closest you can come to finding it,” says Wagner, whose anti-aging protocol is just the latest in a series of new programs and products he’s created for The Life House.
